

MATTRESS BOOTS

Protective packaging for bedding

Woven polypropylene mattress boots and full-coverage bags help protect finished mattresses during storage and transportation. Multiple styles, colors, and elastic options are available for different functional and appearance requirements.

PRODUCT OVERVIEW

Mattresses can be exposed to dirt, moisture, and handling damage during storage and transit. Mattress boots provide targeted lower-edge protection, while full-coverage bags provide broader protection for the finished mattress. Materials Management offers standard bedding sizes and can review special packaging needs for custom applications.

Standard Sizes	Twin, Full, Queen, King, and California King
